## About Me

I am a skilled web developer with 1 year of experience in Node.js, Express, Handlebars, and React.js. I have a strong background in C++, HTML5, CSS3, JavaScript, and other web technologies. I am passionate about working with new technologies and constantly improving my web development skills.

## Work Experience

- **Backend Developer**

Shivay Infotech PVT LTD, Inc.  
*October 2021 to June 2022*

### LOAN APPLICATION

- Developed loan application using Node.js, Express, and MongoDB as the backend technologies.
- Implemented the functionality to create loan proposals for customers, allowing them to submit loan applications.
- Integrated Zoho Sign API for digital document signing and verification.
- Integrated Stripe for payment processing, enabling secure and seamless transactions.
- Utilized Postgres as the database management system for data storage and retrieval.

### CHATBOT IVR SYSTEM

- Built a CHATBOT **IVR system** using Node.js and Express.
- Integrated OpenAI models to provide answers to user queries based on provided information.
- Implemented a conversational interface that guided users through the system and answered their questions.
- Utilized Natural Language Processing techniques to understand and respond to user inputs effectively.

## Education History
